***Maggie's List** is a Federal Political Action Committee (PAC) created to increase the number of elected women committed to promoting the values of fiscal conservatism, less government, more personal responsibility and strong national security; thus promoting a more representative government. To advance this mission, Maggie's List will provide programs and financial support to women candidates who meet these criteria, enabling them to run competitive and successful campaigns for the United States House of Representatives and the United States Senate. For more information, please go to [www.MaggiesList.org](http://www.MaggiesList.org).*
